

*REMARKS/ARGUMENTS*

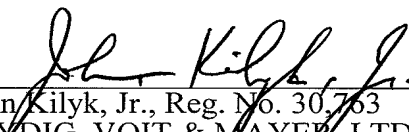

Applicants noticed that certain chemical structures, namely, groups G-E in claim 15 and formula II in claim 17, do not appear in correct and complete form in the amended claim set recited in the "Reply to Office Action" dated October 20, 2009. These chemical structures were not intended to be changed in the amended claim set recited in the "Reply to Office Action" dated October 20, 2009.

The amended claim set recited herein replaces – in its entirety – the amended claim set recited in the "Reply to Office Action" dated October 20, 2009, so as to correct the aforementioned inadvertent reproduction errors with respect to the chemical structures. Otherwise, the amended claim set recited herein is identical to the amended claim set recited in the "Reply to Office Action" dated October 20, 2009.

Thus, the amended claim set recited herein should be entered and considered with the remarks set forth in the "Reply to Office Action" dated October 20, 2009.

If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,
